**6th World Intracranial Hemorrhage Conference (WICH 2017)
May 1-3, 2017, Baltimore Maryland**

Johns Hopkins University will be hosting the 6th World Intracranial Hemorrhage Conference (WICH 2017) on May 1-3, 2017 in Baltimore, Maryland, United States. The Conference will feature highly respected speakers who will share, discuss, debate and dissect significant new developments and scientific advancements that will impact the future of intracranial hemorrhage. The planned program will provide learning opportunities for students, medical specialists and clinicians from all fields of endeavor, as well as world-class content for researchers and industry supporters.

The main theme of the conference is "Accelerating Scientific Discoveries and Major Milestones in Intracranial Hemorrhage Therapeutics." The conference will lay a platform for the interaction between experts around the world and aims to encourage further research via the exchange of ideas between researchers and clinicians. The program will include all fields of intracranial hemorrhage, in order to understand the mechanisms behind these varied conditions and discuss how to improve their treatments.

Register at <http://www.worldich.org/>. Early registration deadline is **February 15, 2017**.

NIH StrokeNet Employment Opportunities

**Division Chief, Stroke and Vascular Neurology
University of Florida, Gainesville (The Florida Gators)**

The University of Florida anticipates opening a new free-standing Neurology- Neurosurgery hospital in 2017. A new division chief is sought to direct a program aimed to quickly grow to 6-8 (5 current faculty) vascular boarded neurologists. The chief will be charged with the goal to make UF a leader in basic, clinical and translational stroke care and research. The chief can be a basic scientist, a translational researcher, or clinician- researcher. The chief will direct a

large fellowship program and a telemedicine initiative. The opportunity will include a competitive salary and benefit package and a significant start-up package for recruitment, care, education, and research (including laboratory space). Candidates can be of any academic rank but must have current vascular neurology boards and significant past or present experience as a stroke neurologist.
