REMINDER!
Monthly Coordinator Call
The April coordinator call is rescheduled for Thursday, April 25 at 10:00 AM and the May coordinator call will be on 5/16 at 10:30 AM.

Enrollment Update (as of 04/12/2019)

- CREST 2 – 1381/2480
- CREST-H – 59/500
- ARCADIA – 191/1100 randomized; 797/4400 consented/not randomized

StrokeNet Trial Updates

Spring (and ARCADIA Enrollment) is blooming -- 191 and counting!

As of April 11, 2019, ARCADIA has consented 797 participants and randomized 191. Enrollment is at 17% of the overall enrollment goal of 1,100 participants. This represents an increase of 38 consented patients and 10 randomized patients over the past 2 weeks. Please keep approaching potential subjects and stay in touch with consented ones to make sure we can make our trial a success!

We congratulate Lehigh Valley Hospital, Allentown, PA; McLaren Flint, Flint, MI; Houston Methodist Hospital, Houston, TX; and University of Wisconsin University Hospital, Madison, WI on consenting and randomizing their first subjects. Keep it up! We truly appreciate the effort made by the 27 sites that have consented subjects in the past 2 weeks!

Kudos also to the three veteran sites that randomized in the past two weeks: Hospital of the University of Pennsylvania, PA; Emory University Hospital, Atlanta, GA; and UH Cleveland Medical Center, Cleveland, OH. Keep them coming!

The University of Cincinnati and United Hospital St. Paul are atop the leader board with 10 subjects randomized at both sites! There is still a tie for 2nd place between the University of Iowa and OHSU with 9 apiece. Who will be the first to randomize 11 subjects at their site?

ARCADIA is ours, let’s make a committed effort to be part of its success!

Our monthly per site randomization rate sits at 0.18 patients per site. We have released to enroll 117 sites, with several more US sites to join the ARCADIA team; including more VA sites almost ready. There are 69 sites that have randomized at least one patient, and 48 waiting to randomize their first; 108 have now consented at least 1 patient, and 9 have not yet consented any (including 2 suspended sites).

Webinar: Our next PI and coordinator webinar will be April 23 at 2 PM Eastern—save the date! We’re asking that at least 1 person from each site attend the monthly webinar and pass the information along to their team. Also, please send suggestions for topics you’d like discussed.

If you miss out on a webinar, you will soon be able to find the slides on the StrokeNet website (https://nihstrokenet.org/education).

At the end, please find the latest bi-weekly StrokeNet newsletter and the dashboard.
Monthly Update
22-April 2019

**Recruitment:** CREST-2 has had 17 randomizations so far in the month of April – a great start! We would like to highlight the StrokeNet sites: Novant Health, the San Francisco VA, Mayo Clinic Rochester, Gundersen Clinic, Louis Stokes Cleveland VA Medical Center, and the Medical University of South Carolina for enrolling!

**CIRB Continuing Review:** Please remember that the following CIRB documents are due April 26, 2019:
- Updated StrokeNet COIs from everyone listed on your eDOA log uploaded into WebDCU
  - Please indicate the expiration date in WebDCU as May 1, 2020
- Completed research site continuing review form
  - Please send this to your site manager
- The most recently signed, de-identified copy of the last signed informed consent form that was signed closest to March 12, 2019
  - Please send this to your site manager
- Current eDOA log generated and printed from WebDCU in PDF format
  - Please send this to your site manager

**CREST-H**

We are up to 59 patients and 42 sites. Congrats to USC Keck, Maine Medical, Overlake, and Mayo Rochester for recent enrollments. Several sites are very close to green lighting, so we hope to ramp up enrollment in the next few months.

PLEASE UPLOAD A CT PERFUSION TEST IMAGE ALSO if you have not already done so.

Remember that potential subjects for CREST-H who cannot tolerate MRI can have a CT perfusion done instead. We are asking ALL CREST-H sites to upload a CTP test image as you did with the MRP test images. Having CTP available as a backup will allow you to capture all potential CREST-H patients! Thanks.

If you are interested in becoming a CREST-H site, contact Randy Marshall rsm2@columbia.edu, Ron Lazar rlazar@ubmc.edu, or coordinators Jaya Vijayan vijayan.jaya@mayo.edu, or Kevin Slane kjs4@columbia.edu with any questions. Thanks!
The MOST Team would like to send Congratulations to the following for having fully executed Clinical Trial Agreements (CTAs):

- Central Dupage Hospital, Winfield, IL
- University of Virginia Medical Center, Charlottesville, VA
- The Ohio State University Medical Center, Columbus, OH
- University of Minnesota Medical Center, East Bank Hospital, Minneapolis, MN
- University of Alabama Birmingham, Birmingham, AL
- Temple University Hospital, Philadelphia, PA
- Grady Memorial Hospital (The Fulton-DeKalb Hospital Authority), Atlanta, GA
- St. Luke’s Hospital, Cedar Rapids, IA
- Loyola University Medical Center, Maywood, IL
- NYP Weill Cornell Medical Center, New York, NY

The Sleep SMART team would like to have 30 sites ready to enroll by the end of May. Please continue to work diligently with your contracts/legal teams to get your clinical trial agreements and FusionHealth DUA and consignment agreements finalized. These contracts should continue to be a priority if not already completed for your site.

Regulatory packets were emailed to all sites on Monday, April 1, 2019. At least 19 sites have reached out to the NCC Regulatory Specialists and are actively working on preparing their site trial documents for CIRB submission.

Congratulations to the following sites for making their CIRB submission within a week of receiving their regulatory packets:

1. UCSD Health La Jolla, La Jolla, CA
2. UCSD Medical Center-Hillcrest Hospital, San Diego, CA
3. Mercy Health St. Mary’s, Grand Rapids, MI

Please remind site personnel that they must take and pass all assigned training quizzes with at least an 80% before completing and uploading the required training attestation certificates in WebDCU.

We will be hosting a regulatory webinar on Wednesday, April 24, 2019 from 1-2 pm EDT. Save the date!! Further details will be coming soon.
Our next PI and Coordinator call is scheduled for Monday April 15th at 11am EST. Please make every effort to have at least one member from your team attend the call. We will be discussing plans for recruitment at each site as well as any continued barriers sites may be experiencing. If anyone has topics they would like to discuss during the call, please send them to Kelly (krajeck@musc.edu).

We would like to congratulate the University of Southern California and Washington University for completing their CTA this week! Our count is now up to 10 sites with fully executed CTAs;

- MedStar
- Burke
- MUSC
- Moss
- University of Kentucky
- University of Cincinnati
- Baystate
- Emory
- University of Southern California
- Washington University

A huge thanks to the following sites who have received approval from the cIRB:

- MUSC
- Burke
- University of Kentucky

USC, UT, and WashU were submitted to the cIRB this week. Please continue to work hard to get the regulatory packets completed and submitted. Also, be sure to upload the necessary site regulatory documents into WebDCU. If you have any questions, do not hesitate to reach out to the NCC Regulatory Specialists. We appreciate all your continued hard work and dedication to TRANSPORT2.

I-ACQUIRE

Virginia Tech announced the launch of the nation’s first multicenter pediatric stroke recovery trial for researchers and clinicians from 12 sites across the United States evaluating an innovative therapeutic approach to help 8-month-old to 24-month-old infants.

Link to Article: https://vtnews.vt.edu/articles/2019/03/kidstroke-fralinbiomedical-032519.html

We are excited to announce the following 10 clinical performance sites who will be participating in the I-ACQUIRE Study:

- Boston Children’s Hospital, Boston, MA
- Kennedy Krieger Institute Fairmount Rehabilitation Program, Baltimore, MD
- Fralin Biomedical Research Institute, Roanoke, VA
- Ann & Robert H. Lurie Children’s Hospital of Chicago, Chicago, IL
- OSU Martha Morehouse Medical Plaza, Columbus, OH
- UC San Diego Health La Jolla (including Jacobs Medical Center), La Jolla, CA
- Cincinnati Children’s Hospital Medical Center, Cincinnati, OH
- Michigan Medicine C.S. Mott Children's Hospital (including the Pediatric Rehabilitation Center – Commonwealth), Ann Arbor, MI
- Children's Hospital Of Philadelphia (CHOP), Philadelphia, PA
- Memorial Hermann-Texas Medical Center - Children’s Memorial Hermann Hospital, Houston, TX

Details on the final two clinical performance sites are being worked out.

The I-ACQUIRE Team would like to send Congratulations to the following for having the first fully executed Clinical Trial Agreement (CTA) in the trial:

- UC San Diego Health La Jolla, La Jolla, CA; PI: Doris Trauner MD

The following webinars will take place next week:

- Wednesday, April 17th: 11:00am – 11:45am ET. Sharon Landesman Ramey, PhD and Warren Lo, MD, will lead a Welcome and Overview webinar.
- Thursday, April 18th: 2 – 3 p.m. ET. CTA & Regulatory How-to Webinar.

Please hold these dates and time on your calendars. A calendar invite has been sent with call-in and login directions.

---

**StrokeNet Meetings/Webinars**

**Fall Network Meeting:**
Tuesday, 29-October, Atlanta, Georgia. Meeting details will be forthcoming, but please SAVE THE DATE!!!

---

**Steering Committee Call**

*Steering Committee Calls are a requirement for all NIH StrokeNet RCCs (One representative per RCC required)*

The next Steering Committee call is scheduled for 8-May, 2019, at 12 noon ET. Teleconference details: 1-877-621-0220, passcode 434578.
**Coordinator Webinar**

Coordinator Webinars are a requirement for the NIH StrokeNet RCC Coordinators/Managers

When: Wednesday, April 24, 2019 - 1:30 PM ET

Presentation: TBA

To join the meeting: [https://nihstrokenet.adobeconnect.com/coordinator/](https://nihstrokenet.adobeconnect.com/coordinator/). Please enter as a guest, then your email address or your first and last name.

To take part in the conversation you MUST dial in. 1 (877) 621-0220 Passcode: 434578

---

**Professional Development Webinar**

Professional Development webinars are a requirement for the NIH StrokeNet Trainees, however all are welcome to participate.

When: Wednesday, April 17, 2019 - 1:00 PM ET

Presentations:
- Post stroke cognitive status and on-time arrival to the emergency department for recurrent strokes: Findings from SWIFT
  - Eric Roberts, MPH, NYU
- Association of Clot Burden Score and Thrombectomy 6 to 24 Hours after Stroke: Analysis of the DAWN Trial
  - Kunakorn Atchaneeyasakul, MD, UCLA
- Moderator: Hal Adams, MD, University of Iowa

---

**Grand Rounds**

Grand Rounds are a requirement for the NIH StrokeNet Trainees, however all are welcome to participate.

When: Thursday, May 30, 2019 - 4:00 PM ET

Presentation:
- Translational Research: Inflammation and Post-stroke Cognitive Decline
  - Marion Buckwalter, MD, PhD, Stanford University
- Moderator: Randy Marshall, MD, Columbia University

To join the meeting: [https://nihstrokenet.adobeconnect.com/grandrounds/](https://nihstrokenet.adobeconnect.com/grandrounds/). Please enter as a guest, then your email address or complete name. To take part in the conversation you must dial in, 1 (877) 621-0220 Passcode Number: 190825
StrokeNet Employment Opportunities

University of Iowa
Director, Division of Cerebrovascular Disease, and
Head, Comprehensive Stroke Center
Department of Neurology
The University of Iowa
Roy J. and Lucille A. Carver College of Medicine

The Department of Neurology at the University of Iowa, Carver College of Medicine seeks candidates for the position of Director of the Division of Cerebrovascular Disease, and Head of the Comprehensive Stroke Center.

The Department of Neurology is home to over 45 primary faculty members who are distinguished leaders in teaching, research, and clinical care. The Division of Cerebrovascular Disease includes eight stroke trained neurologists, two stroke fellows, and 4.5 APPs that provide clinical services for stroke patients. The Division has an active Neurointerventional Surgery (NIS) program with two neurologists trained in NIS and neurocritical care, and two NIS fellows. As the only university affiliated hospital in a state of 3 million people, there is exceptional potential for growth in clinical services and academic research. This includes unusually rich opportunities in rural health, telestroke, epidemiology, primary care, NIS, genetics, neuroimaging, neurosonology and poststroke rehab. There is already an extensive clinical trials and research portfolio, including NINDS StrokeNet and Clinical Trials Methodology Course grants. There are strong collaborative relationships with colleagues in Radiology, Neurosurgery, Psychiatry, Physical Therapy and Rehabilitation Science and Emergency Medicine within the Medical School and with the Colleges of Public Health and Engineering.

Candidates should have strong administrative leadership experience in academic medicine and capacity to foster an environment in which excellence in teaching, research and scholarship can flourish, as well as experience and interest in developing and leading cerebrovascular clinical programs. The successful candidate will also have a record of excellent interpersonal skills, enjoy interactions with students, staff, and faculty, and have a commitment to working effectively with diverse faculty, staff, and students. They must have an MD degree or equivalent, an outstanding record of accomplishments in teaching, research, and service, be eligible for licensure in Iowa, and be board certified in vascular neurology.

The search committee will accept nominations and applications until the position is filled. Nominations should include curriculum vitae. To apply for this position visit our website and search for Requisition # 73557 at: https://jobs.uiowa.edu/faculty/view/73557

Full-time Neurocritical Care Faculty Position, Spectrum Health Medical Group

Title: Attending Critical Care Neurologist
Field of Specialization: Neurocritical Care

Job Description: Spectrum Health’s Department of Clinical Neurosciences is seeking to add a full-time critical care neurologist to their fellowship-trained physician care team. This faculty member will participate in the Joint Commission certified Comprehensive Stroke Center and Level I Trauma Center at Butterworth Hospital in Grand Rapids, Michigan. In addition to research opportunities, the position includes neurology residency and medical school teaching with faculty appointments through Michigan State University. Robust Grand Round opportunities are available for CME/MOC and a Vascular Neurology Fellowship is also under development. Leadership opportunity potential.
Spectrum Health Butterworth Hospital is a hub for regional stroke and trauma network in West Michigan.
Neuro ICU: 14 beds and growing
Annual Stroke Volume: 1500+
Annual intravenous thrombolysis Volume: 150+
Annual Thrombectomy Volume: 150+
Annual SAH Volume: 50+
Annual TBI Volume: 880

Requirements: MD or DO, BC/BE, Neurocritical Care Fellowship training
Contact: Christine Powers, Christine.powers@spectrumhealth.org

Please share this with your clinical performing and satellite sites!
